 **DR. REGISTER**
CALCIUM BOLUS

New & Improved

for Dairy Cows

Boluses are now a standard in Transition Cow management.

The original Dr. Register calcium bolus has experienced very strong sales and many producers have seen the results in their herd. Dr. Register through his work in large dairy herds has enhanced the formulation with added ingredients.

Contact your EastGen representative and try it today!

Advantages

- Two sources of Calcium (Calcium Chloride & Calcium Sulfate)
- Fast acting Calcium absorption and a slower absorption with Calcium Sulfate
- Vitamin D₃ (Helps to increase the absorption of calcium and other vitamins)
- B₂, Grape Seed & Glycerin, helps to maintain the health of the cow

Pricing
